

Year 1 wanted to explore toys in every context. We looked into Bruce Nygren paintings and prepared the art room for still life toys painting. We took our time observing and using charcoal and acrylic. The children drew toys from the present and the past, coming up with a special view of the objects.

Immersed in the 1960s, **Year 6** recreated the Factory, Andy Warhol's New York City studio. We evaluated Pop Art and how Andy Warhol used images of popular culture from advertisements and famous film stars. Inspired by the Velvet Underground LP cover design, children had a real experience in a screen printing art studio. From setting up the frames and the stencils, to using satisfactory squeegees and producing unique work. Please, see a selection of the artwork on the 2nd floor.

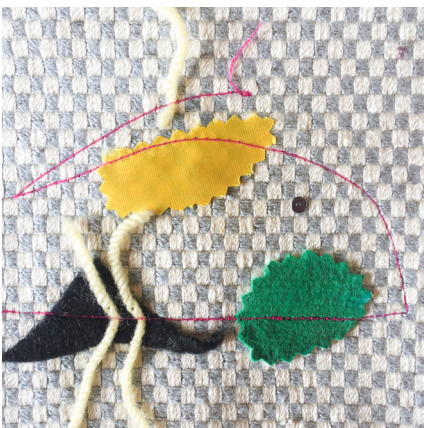

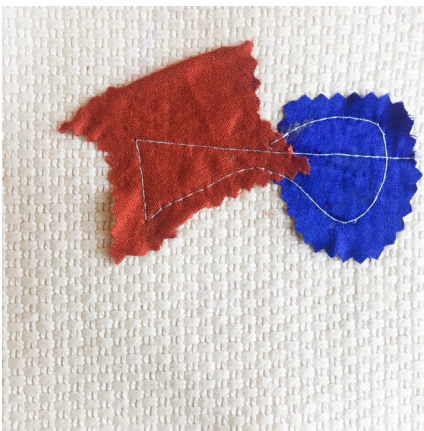

The Sketch Club has been focusing on healing community projects for the chemotherapy unit at the Whittington hospital. Inspired by spring and nature, the children are drawing their memorable forest using outside sketches and composing eight A2 panels with mixed media (ink, pencil, marker, ...). The project is under construction so more details to come!

"The Sky " Quilt Community Project

Welcoming **Year 2** and **Nursery** to the project, we have enjoyed seeing their admirable interpretation and composition with fabric about the stars and the clouds in the sky.

GROWN-UP WORKSHOPS

Thursdays 7pm-9pm

28 April, 5 May, 12 May, 19 May

For the first time, Highgate Primary School is organising 8 series of workshops for adults during the summer term. Each workshop will bring together like-minded and creative individuals in the art room.

The workshops include artists working in sculpture, photography, printmakers and craftsmanship in leatherwork, jewellery, bookbinding, textiles and more.

The artists' information and booking details will come in the first week of summer. We hope you can take part.
